## 2019 College Aviation Directory

Welcome to the 2019 College Aviation Directory. This directory lists the colleges and universities throughout the world that offer associate's, bachelor's, or master's degrees in an aviation field. Included in the grid are columns that indicate which type(s) of degree is offered, and in which discipline(s).

For expanded information on each college, please see the UAA Collegiate Aviation Guide. Our Collegiate Aviation Guide is the largest, most comprehensive source of collegiate aviation programs available in print and online.

Please keep in mind that university enrollment is dynamic, and program information provided by each college and university may vary, so you are encouraged to contact each school that interests you directly before considering the application process. Please email UAA at [hello@uaa.aero](mailto:hello@uaa.aero) with any questions, comments, or updates.

You may access the complete directory online at: <https://issuu.com/universityaviationassociation/docs/2018cag>
